

THE BRAND

Founded by Samer Zakharia, MAISON FLAMEL is a House of Contemporary Beauty that pays tribute to 15th century Parisian alchemist Nicolas Flamel. It offers a unique skincare experience; a mix of scientific innovation and magical scents and textures.

The face and massage combine ancestral manual techniques and biotech innovative products. The results are astounding.

Within the first minutes, the skin breathes and glows, it seems smoothed and replumped.

As days go by, the transformation grows deep. The skin looks younger.

The Maison also offers must-have massages and beauty services.
